University of Utah Student Insurance Eligibility, Rates, and Resources

Undergraduate students enrolled for six (6) or more credit hours each semester and graduate students enrolled in three (3) or more credit hours are eligible to enroll in the plan. Students, who are enrolled in online classes, must have a minimum of three (3) credit hours on campus to be eligible for enrollment. All matriculated international students with a F1 visa and all J1 visa holders will be automatically enrolled in the student plan and do not need to complete the enrollment process.

Eligible students who do enroll may also insure their Dependents. Eligible Dependents are the student’s spouse (husband or wife) and dependent children under 26 years of age. Dependent Eligibility expires concurrently with that of the Insured student.

Annual coverage begins on August 16th or the new school year and continues until August 15th of the next year. Rates for the 2015–2016 school year are as follows:

<table>
<thead>
<tr>
<th>Premium Period:</th>
<th>Rates</th>
<th>Annual Dates: 8/16/15 to 8/15/16</th>
<th>Fall Dates: 8/16/15 to 12/31/15</th>
<th>Spring / Summer Dates: 1/1/16 to 8/15/16</th>
<th>Summer Dates: 5/12/16 to 8/15/16</th>
</tr>
</thead>

Health Resources

Routine Medical Care

Health clinics, like the Student Health Center, take care of most medical problems and injuries. You will be required to make an appointment in order to be seen by a health care provider. If you have the University student insurance plan the best place for you to go for your medical problems and injuries is the University of Utah Student Health Center. This clinic is in Madsen Health Center, located on campus at 555 Foothill Drive ([http://www.map.utah.edu/](http://www.map.utah.edu/)). Enter MHCB in the search function to find the clinic.
Specialty Care

Certain health care problems require you to see a specialist. A specialist is a doctor who is focused on one part of your body. For example a skin specialist is a dermatologist, a bone specialist is an orthopedist. For students on the student insurance plan, you must obtain a referral from the Student Health Center before being seen by a specialist. Only the Student Health Center can provide you with this referral. If you are seen in the emergency room and are referred to a specialist, you still must see a provider at the Student Health Center for the referral.

Urgent Care

If the Student Health Center is closed and you need to see someone for a non-life-threatening problem or injury the best place for you to go is The Redwood Urgent Care Clinic that is open from 5 pm to 9 pm Monday through Friday and from 9 am to 9 pm on Saturday and Sunday. You do not need to make an appointment for urgent care, and the clinic is located at 1525 West 2100 South, Salt Lake City, UT.

For more information visit: http://healthcare.utah.edu/primarycare/redwood/urgent-care.php.

Other urgent care centers, as well as a 24/7 nurse line available to students on the University sponsored insurance plan can be found here on this after-hours resource list: http://studenthealth.utah.edu/about/After-Hours%20Resource%20List.pdf All urgent care is subject to your insurance’s deductible and copay, and thus costs will be higher than being seen at the Student Health Center.

Life-Threatening Medical Problems or Injuries

Emergency rooms in hospitals are only for major life-threatening medical problems or injuries, such as severe chest pain, shortness of breath, headache, dizziness, vomiting, uncontrolled bleeding, pain, or injury. If you are unsure of whether you are having a life-threatening medical emergency, go to the emergency room.
